EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lee Jun on 03/18/2005.

In claim 1, lines 17 and 20, replace "terminal" with --terminals--.

In claim 1, lines 18 and 21, insert --are-- between "units" and "connected"

In claim 1, lines 17 and 20, delete "each".

In claim 1, line 9, delete "a".

In claim 4, lines 4, 7 and 9, delete "rest" and insert --a portion of the--.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior arts of record fail to teach a multi-track speech synthesizer comprising: a plurality of signal transform units each for receiving a series of digital speech codes and converting them to an analog speech signal with a zero point at zero and its negative half-cycles inverted; a plurality of current switch units each connected to said signal transform units respectively for receiving said analog speech signal from said signal transform units, each of said current switch units including a first and second output terminals to send out a current for positive half-cycles of said analog speech signal from said first output terminal and back from said second output terminal and to send out a current for said negative half-cycles of said analog speech signal from said second output terminal and back from said first output terminal; wherein said first output terminal of each said current switch units are connected together to form a first connected output terminal; wherein said second output terminal of each said current switch units are connected together to form a second connected output terminal; a comparison unit for comparing voltages of said first and second connected output terminals and then sending out a control signal; and a current output unit for receiving and sending out currents from said first and second connected output terminals from a first and second drive terminals under control of said control signal from said comparison unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
